

A Tradition of Excellence

AAHA Accredited

Iron Mountain Animal Hospital is proud to be an accredited member of the American Animal Hospital Association (AAHA). Our accreditation demonstrates our commitment to the highest standards of veterinary care. AAHA regularly evaluates our hospital to ensure that we meet or exceed the association's standards for patient care, hospital services and equipment. AAHA standards are recognized around the world as the benchmark for quality care in veterinary medicine.

Professional Staff

The most important feature of Iron Mountain Animal Hospital is our professional staff. We place a strong emphasis on continuing education and team training, enabling us to provide the best care possible for our patients. We're dedicated to client education, providing you with information you need to make the best decisions for your pet's care.

We understand the special role your pet plays in your family and are dedicated to becoming your partner in your pet's health care. We treat your pet as we would our own.

Complete Health Care

It is our commitment to provide quality veterinary care throughout the life of your pet. Our services and facilities are designed to assist in routine preventive care for young, healthy pets; early detection and treatment of disease as your pet ages; and complete medical and surgical care as necessary during his or her lifetime.

Wellness

Keeping your pet healthy is important to us, and regular wellness examinations are the foundation to helping him live a longer, healthier, happier life. Wellness care covers far more than vaccinations; it also includes preventive care such as heartworm, tick disease, and intestinal parasite testing, as well as nose to tail exams, and comprehensive evaluations of overall health.

Dentistry

Periodontal disease is the most common ailment found in dogs and cats over four years old. It can lead to pain and tooth loss, and the resulting bacteria can spread throughout the body and damage the heart, lungs, kidneys and liver. Our dental services include teeth cleaning and polishing, tooth extractions, oral surgery, and our new digital dental x-ray, which will allow us to give better dental service than ever to our patients.

Advanced Technology

Surgical Services: Our state-of-the-art surgical suite enables the performance of a wide variety of surgical procedures. We use radiofrequency (surgitron) technique when appropriate to lessen trauma and speed healing time.

Anesthesia: We utilize the safest available anesthetics for that extra margin of safety. Using the most modern equipment, the patient's vital signs are monitored during all anesthetic procedures.

Digital Radiology and Dental Radiology: We use digital radiology (x-ray), which provides superior diagnostic details, including improved image quality, computerized enlargements and enhancements.

Laboratory: Our in-house laboratory facilities are equipped for chemistry, hematology, serology, urinalysis and parasite testing. We also utilize commercial veterinary laboratories for specialized diagnostics and consultations.

Pharmacy: We maintain a complete inventory of pharmaceuticals, vitamins, shampoos and heartworm preventives to meet the needs of your pet.

Ultrasound: We team up with a local ultrasonographer to provide comprehensive ultrasound services.

Endoscopy: We have the ability to utilize endoscopy for some procedures to avoid unnecessarily invasive surgeries.

Pain Management

We employ preventive pain management strategies tailored for your individual pet. Studies show that appropriate pain management reduces stress and speeds recovery. Whether your pet has experienced an acute cause for pain, such as an injury, surgical or dental procedures, or is suffering from a chronic problem such as arthritis, cancer or disease, our team will take every step to ensure his comfort.

Online Store

You can purchase guaranteed prescriptions and products from your trusted veterinarian 24 hours a day, 7 days a week, from our online store. Simply go to our website and click the "Shop Online" logo in the upper right hand corner. Most items arrive at your door within 2 days, and shipping is free for any food and for all orders over \$38. You can even schedule automatic monthly deliveries of some medicines using the Easy Dose It option!

New State-Of-The-Art Facility

September 2010 marked the opening of our new, state-of-the-art veterinary hospital. We now have a spacious and modern facility fully equipped with the latest medical equipment for you and your family pets. We are extremely excited to bring this addition to our community and we hope you are too!
