Wellness Plan

The purpose of wellness packages is to promote care for our patients and to ease the burden of care for our clients.

Products/Services Included:

- * Annual Wellness Exam
- * RCP (Rhinotracheitis-Calici-Panleukopenia viruses) Vaccine
- * Leukemia Vaccine
- * Rabies Vaccine
- * One fecal check

Price: \$13.92/month (5% savings) OR \$158.30 lump sum (10% savings)

Additionally, any monthly paid wellness plans may have a year's worth of heartworm and flea/tick preventatives added to your monthly payments if they are purchased at the same time as the wellness plan. Monthly payment for this will vary as product price varies based on the choice of product. A "year's worth" is defined as 12 doses of heartworm and 9 months of flea/tick prevention.

Additional Services Included

All Wellness Packages include additional services to promote wellness care free of charge. These services are:

- * Free nail trims and
- * Free anal gland expressions

These services are unlimited- so your pet can visit us as many times during the year as they need to for nail trims and anal gland expressions.

Microchipping is offered at a 20% discount to all wellness plan patients.

Limitations

- * Nail trims and anal gland expressions will be done by technicians/assistants- no doctor will be seen for these appointments. If you wish to see a doctor, an office call charge will be added.
- * Any lab work included in the wellness plan must be scheduled ahead of time and must be performed on a healthy animal.

Requirements

- * To make the monthly payments, an ACH agreement must be signed (payments will automatically be taken from a checking account).
- * Acceptance into the program is dependent on a credit check (acceptance into Care Credit).
- * Payments will be made automatically from a checking account. If the payment ever bounces, the balance will be placed on the client's Care Credit card.
- * For animals that pass away, go missing, or are re-homed while enrolled in a program- either the remainder of the wellness plan balance, or retail for services performed will be paid- whichever is cheaper for the client.
