Additional Services Included

All Wellness Packages include additional services to promote wellness care free of charge. These services are:

These services are unlimited- so your pet can visit us as many times during the year as they need to for nail trims and anal gland expressions.

Limitations

- * Nail trims and anal gland expressions will be done by technicians/assistants- no doctor will be seen for these appointments. If you wish to see a doctor, an office exam charge will be added.

- * Any lab work included in the wellness plan must be scheduled within 2 weeks of starting the plan and must be performed on a healthy animal.
- * Adult wellness plans assume the animal is up to date on vaccines and will not need additional boosters. If additional boosters are needed, additional fees will apply.

Requirements

- * To make the monthly payments, an ACH agreement must be signed (payments will automatically be taken from a checking account).
- * Acceptance into the program is dependent on a credit check (acceptance into Care Credit).
- * Payments will be made automatically from a checking account. If the payment ever bounces, the balance will be placed on the client's Care Credit card.
- * Upon signup, the first month's payment will be paid immediately. All future payments will be drawn on the 6th of each month.
- * For animals that pass away, go missing, or are re-homed while enrolled in a program- either the remainder of the wellness plan balance, or retail for services performed will be paid- whichever is cheaper for the client.
